

January 2nd, 2021

To whom it may concern,

We had a great time working with FRC team 4499, the Highlanders for the 2020-2021 Season as well as in previous years. This year, FIRST is asking us to provide documentation from teams we have mentored, assisted, and/or started. We are reaching out asking for your confirmation that we have met the following definition(s) with your team these years: **Mentorship**.

Mentorship:

If you agree that we have reached this level of involvement, please reply to this email and provide a digital signature below.

I, Mrs. Lannen, agree that The Highlanders/Neaera Robotics provided mentorship to FTC team 5899, LASER, for the 2020-2021 Season meeting the criteria of **Mentorship**.
